Elsevier

Key Word Index

Alpha-blocking
Cirrhosis; Cortical arousal; Feedback EEG; Orienting response; Quantifiable; Subclinical hepatic encephalopathy; Trail-making test, 137

Analytic processing
Cognitive potential; Child development; Operational processing; Holistic processing, 145

Antisocial personality
Attention; Evoked potential; Psychopathy, 17

Anxiety
Depression; Ischemic heart disease; Hormone-sensitive tumour; Capacity for work; Psychiatric epidemiology; Prevention, 99

Attention
Psychopathy; Evoked potential; P3; Sensation seeking; Schizophrenia, 1

Antisocial personality; Evoked potential; Psychopathy, 17

Psychopathy; Evoked potential; P3; Sensation-seeking, 29

Autism; Event-related potential; Fenfluramine; Serotonin; Noradrenaline; Dopamine; Homovanillic acid, 197

Electrodermal activity; Heart rate; Heart rate deceleration; Reaction time; Response accuracy, 249

Autism
Event-related potential; Fenfluramine; Serotonin; Noradrenaline; Dopamine; Homovanillic acid; Attention, 197

Avoidance reaction time
Defense response; Heart rate; Mental arithmetic; Cold pressor; Simple reaction time, 49

Belligerence
Psychopathy; Evoked potential; Cognitive appraisal; Coping, 23

Blunted affect
Depression; Electroencephalogram; Electro-clinical correlation; Functional hemisphere asymmetry; Psychomotor retardation; Sequential alpha burst asymmetry, 169

Capacity for work
Anxiety; Depression; Ischemic heart disease; Hormone-sensitive tumour; Psychiatric epidemiology; Prevention, 99

Child
Nootropics; Piracetam; Movement-related brain macropotential, 223

Child development
Cognitive potential; Operational processing; Holistic processing; Analytic processing, 145

Cirrhosis
Alpha-blocking; Cortical arousal; Feedback EEG; Orienting response; Quantifiable; Subclinical hepatic encephalopathy; Trail-making test, 137

Cognition
Eye blink; Saccade; Information processing, 35

Cognitive appraisal
Psychopathy; Evoked potential; Belligerence; Coping, 23

Cognitive potential
Child development; Operational processing; Holistic processing; Analytic processing, 145

Cold pressor
Defense response; Heart rate; Mental arithmetic; Simple reaction time; Avoidance reaction time, 49

Coping
Psychopathy; Evoked potential; Belligerence; Cognitive appraisal, 23

Cortex area
Human brain; Subcortical nucleus; Implanted electrode; Neuronal activity; Mental function; Test battery; Psychophysiological mapping, 107

Cortical activation mapping
Ear dominance; Event-related desynchronization; Hemisphericity; Motor preparation; Response time, 283

Cortical arousal
Alpha-blocking; Cirrhosis; Feedback EEG; Orienting response; Quantifiable; Subclinical hepatic encephalopathy; Trail-making test, 137

Defense response
Heart rate; Mental arithmetic; Cold pressor; Simple reaction time; Avoidance reaction time, 49

Depression
Anxiety; Ischemic heart disease; Hormone-sensitive tumour; Capacity for work; Psychiatric epidemiology; Prevention, 99

Blunted affect; Electroencephalogram; Electro-clinical correlation; Functional hemisphere asymmetry; Psychomotor retardation; Sequential alpha burst asymmetry, 169

Desynchronization
Hemispheric difference; Semantic task; Numerical classification task, 297

Developmental psychophysiology
Picture-matching; Longitudinal testing; P300; N400, 213

Differential recording
Evoked potential; Hypothalamus; Ventromedial nucleus; Lateral area; Source localization; Hunger; Satiety; Rat, 73

Directed attention
EEG topography; Neuropsychology; Functional activation; Laterality, Recognition memory; Motor sequencing; Schizophrenia, 275

Dopamine
Autism; Event-related potential; Fenfluramine; Serotonin; Noradrenaline; Homovanillic acid; Attention, 197

Ear dominance
Cortical activation mapping; Event-related desynchronization; Hemisphericity; Motor preparation; Response time, 283

EEG topography
Neuropsychology; Functional activation; Laterality, Recognition memory; Motor sequencing; Directed attention; Schizophrenia, 275

Electro-clinical correlation
Blunted affect; Depression; Electroencephalogram; Functional hemisphere asymmetry; Psychomotor retardation; Sequential alpha burst asymmetry, 169

Electrodermal activity
Attention; Heart rate; Heart rate deceleration; Reaction time; Response accuracy, 249

Electrodermal asymmetry
Electroencephalograph; Skin conductance, 309

Electroencephalogram
Power spectra; Schizophrenia, 85

Blunted affect; Depression; Electro-clinical correlation; Functional hemisphere asymmetry; Psychomotor retardation; Sequential alpha burst asymmetry, 169

Electroencephalograph
Electrodermal asymmetry; Skin conductance, 309

Error detector
Subcortical; Visual recognition; Multiunit activity; Man, 261

Event-related desynchronization
Cortical activation mapping; Ear dominance; Hemisphericity; Motor preparation; Response time, 283

Event-related potential
Matching task; Late negative component, 185

Autism; Fenfluramine; Serotonin; Noradrenaline; Dopamine; Homovanillic acid; Attention, 197

Event-related potentials
Selective attention; N1 component; Processing negativity; Mismatch negativity; P3 component; Normal, 61

Evoked potential
Psychopathy; P3; Attention; Sensation seeking; Schizophrenia, 1

Antisocial personality; Attention; Psychopathy, 17

Psychopathy; Belligerence; Cognitive appraisal; Coping, 23

Psychopathy; P3; Attention; Sensation-seeking, 29

Hypothalamus; Ventromedial nucleus; Lateral area; Differential recording; Source localization; Hunger; Satiety; Rat, 73

Eye blink
Saccade; Information processing; Cognition, 35

Feedback EEG
Alpha-blocking; Cirrhosis; Cortical arousal; Orienting response; Quantifiable; Subclinical hepatic encephalopathy; Trail-making test, 137

Fenfluramine
Autism; Event-related potential; Serotonin; Noradrenaline; Dopamine; Homovanillic acid; Attention, 197

Functional activation
EEG topography; Neuropsychology; Laterality, Recognition memory; Motor sequencing; Directed attention; Schizophrenia, 275

Functional hemisphere asymmetry
Blunted affect; Depression; Electroencephalogram; Electro-clinical correlation; Psychomotor retardation; Sequential alpha burst asymmetry, 169

Heart rate
Defense response; Mental arithmetic; Cold pressor; Simple reaction time; Avoidance reaction time, 49

Intelligence; Task performance; Respiration rate, 235

Attention; Electrodermal activity; Heart rate deceleration; Reaction time; Response accuracy, 249

Heart rate deceleration
Attention; Electrodermal activity; Heart rate; Reaction time; Response accuracy, 249

Hemispheric difference
Desynchronization; Semantic task; Numerical classification task, 297

Hemisphericity
Cortical activation mapping; Ear dominance; Event-related desynchronization; Motor preparation; Response time, 283

Holistic processing
Cognitive potential; Child development; Operational processing; Analytic processing, 145

Homovanillic acid
Autism; Event-related potential; Fenfluramine; Serotonin; Noradrenaline; Dopamine; Attention, 197

Hormone-sensitive tumour
Anxiety; Depression; Ischemic heart disease; Capacity for work; Psychiatric epidemiology; Prevention, 99

Human brain
Cortex area; Subcortical nucleus; Implanted electrode; Neuronal activity; Mental function; Test battery; Psychophysiological mapping, 107

Hunger
Evoked potential; Hypothalamus; Ventromedial nucleus; Lateral area; Differential recording; Source localization; Satiety; Rat, 73

Hypercapnia
Sensory evoked potential; Metabolic disturbance; Intracellular metabolism; Rat, 155

Hypothalamus
Evoked potential; Ventromedial nucleus; Lateral area; Differential recording; Source localization; Hunger; Satiety; Rat, 73

Implanted electrode
Human brain; Cortex area; Subcortical nucleus; Neuronal activity; Mental function; Test battery; Psychophysiological mapping, 107

Information processing
Eye blink; Saccade; Cognition, 35

Rapid eye movement sleep; Language learning, 43

Intelligence
Heart rate; Task performance; Respiration rate, 235

Intracellular metabolism
Sensory evoked potential; Hypercapnia; Metabolic disturbance; Rat, 155

Ischemic heart disease
Anxiety; Depression; Hormone-sensitive tumour; Capacity for work; Psychiatric epidemiology; Prevention, 99

Language learning
Rapid eye movement sleep; Information processing, 43

Late negative component
Matching task; Event-related potential, 185

Lateral area
Evoked potential; Hypothalamus; Ventromedial nucleus; Differential recording; Source localization; Hunger; Satiety; Rat, 73

Laterality, Recognition memory
EEG topography; Neuropsychology; Functional activation; Motor sequencing; Directed attention; Schizophrenia, 275

Longitudinal testing
Developmental psychophysiology; Picture-matching; P300; N400, 213

Man
Error detector; Subcortical; Visual recognition; Multiunit activity, 261

Matching task
Event-related potential; Late negative component, 185

Mental arithmetic
Defense response; Heart rate; Cold pressor; Simple reaction time; Avoidance reaction time, 49

Mental function
Human brain; Cortex area; Subcortical nucleus; Implanted electrode; Neuronal activity; Test battery; Psychophysiological mapping, 107

Metabolic disturbance
Sensory evoked potential; Hypercapnia; Intracellular metabolism; Rat, 155

Mismatch negativity
Event-related potentials; Selective attention; N1 component; Processing negativity; P3 component; Normal, 61

Motor preparation
Cortical activation mapping; Ear dominance; Event-related desynchronization; Hemisphericity; Response time, 283

Motor sequencing
EEG topography; Neuropsychology; Functional activation; Laterality, Recognition memory; Directed attention; Schizophrenia, 275

Movement-related brain macropotential
Nootropics; Piracetam; Child, 223

Multiunit activity
Error detector; Subcortical; Visual recognition; Man, 261

N400
Developmental psychophysiology; Picture-matching; Longitudinal testing; P300, 213

N1 component
Event-related potentials; Selective attention; Processing negativity; Mismatch negativity; P3 component; Normal, 61

Neuronal activity
Human brain; Cortex area; Subcortical nucleus; Implanted electrode; Mental function; Test battery; Psychophysiological mapping, 107

Neuropsychology
EEG topography; Functional activation; Laterality, Recognition memory; Motor sequencing; Directed attention; Schizophrenia, 275

Nootropics
Piracetam; Movement-related brain macropotential; Child, 223

Noradrenaline
Autism; Event-related potential; Fenfluramine; Serotonin; Dopamine; Homovanillic acid; Attention, 197

Normal
Event-related potentials; Selective attention; N1 component; Processing negativity; Mismatch negativity; P3 component, 61

Numerical classification task
Desynchronization; Hemispheric difference; Semantic task, 297

Operational processing
Cognitive potential; Child development; Holistic processing; Analytic processing, 145

Orienting response
Alpha-blocking; Cirrhosis; Cortical arousal; Feedback EEG; Quantifiable; Subclinical hepatic encephalopathy; Trail-making test, 137

P3
Psychopathy; Evoked potential; Attention; Sensation seeking; Schizophrenia, 1

Psychopathy; Evoked potential; Attention; Sensation-seeking, 29

P300
Developmental psychophysiology; Picture-matching; Longitudinal testing; N400, 213

P3 component
Event-related potentials; Selective attention; N1 component; Processing negativity; Mismatch negativity; Normal, 61

Picture-matching
Developmental psychophysiology; Longitudinal testing; P300; N400, 213

Piracetam
Nootropics; Movement-related brain macropotential; Child, 223

Power spectra
Electroencephalogram; Schizophrenia, 85

Prevention
Anxiety; Depression; Ischemic heart disease; Hormone-sensitive tumour; Capacity for work; Psychiatric epidemiology, 99

Processing negativity
Event-related potentials; Selective attention; N1 component; Mismatch negativity; P3 component; Normal, 61

Psychiatric epidemiology
Anxiety; Depression; Ischemic heart disease; Hormone-sensitive tumour; Capacity for work; Prevention, 99

Psychomotor retardation
Blunted affect; Depression; Electroencephalogram; Electroclinical correlation; Functional hemisphere asymmetry; Sequential alpha burst asymmetry, 169

Psychopathy
Evoked potential; P3; Attention; Sensation seeking; Schizophrenia, 1

Antisocial personality; Attention; Evoked potential, 17

Evoked potential; Belligerence; Cognitive appraisal; Coping, 23

Evoked potential; P3; Attention; Sensation-seeking, 29

Psychophysiological mapping
Human brain; Cortex area; Subcortical nucleus; Implanted electrode; Neuronal activity; Mental function; Test battery, 107

Quantifiable
Alpha-blocking; Cirrhosis; Cortical arousal; Feedback EEG; Orienting response; Subclinical hepatic encephalopathy; Trail-making test, 137

Rapid eye movement sleep
Language learning; Information processing, 43

Rat
Evoked potential; Hypothalamus; Ventromedial nucleus; Lateral area; Differential recording; Source localization; Hunger; Satiety, 73

Sensory evoked potential; Hypercapnia; Metabolic disturbance; Intracellular metabolism, 155

Reaction time
Attention; Electrodermal activity; Heart rate; Heart rate deceleration; Response accuracy, 249

Respiration rate
Heart rate; Intelligence; Task performance, 235

Response accuracy
Attention; Electrodermal activity; Heart rate; Heart rate deceleration; Reaction time, 249

Response time
Cortical activation mapping; Ear dominance; Event-related desynchronization; Hemisphericity; Motor preparation, 283

Saccade
Eye blink; Information processing; Cognition, 35

Satiety
Evoked potential; Hypothalamus; Ventromedial nucleus; Lateral area; Differential recording; Source localization; Hunger; Rat, 73

Schizophrenia
Psychopathy; Evoked potential; P3; Attention; Sensation seeking, 1

Electroencephalogram; Power spectra, 85

EEG topography; Neuropsychology; Functional activation; Laterality, Recognition memory; Motor sequencing; Directed attention, 275

Selective attention
Event-related potentials; N1 component; Processing negativity; Mismatch negativity; P3 component; Normal, 61

Semantic task
Desynchronization; Hemispheric difference; Numerical classification task, 297

Sensation seeking
Psychopathy; Evoked potential; P3; Attention; Schizophrenia, 1

Psychopathy; Evoked potential; P3; Attention, 29

Sensory evoked potential
Hypercapnia; Metabolic disturbance; Intracellular metabolism; Rat, 155

Sequential alpha burst asymmetry
Blunted affect; Depression; Electroencephalogram; Electroclinical correlation; Functional hemisphere asymmetry; Psychomotor retardation, 169

Serotonin
Autism; Event-related potential; Fenfluramine; Noradrenaline; Dopamine; Homovanillic acid; Attention, 197

Simple reaction time
Defense response; Heart rate; Mental arithmetic; Cold pressor; Avoidance reaction time, 49

Skin conductance
Electroencephalograph; Electrodermal asymmetry, 309

Source localization
Evoked potential; Hypothalamus; Ventromedial nucleus; Lateral area; Differential recording; Hunger; Satiety; Rat, 73

Subclinical hepatic encephalopathy
Alpha-blocking; Cirrhosis; Cortical arousal; Feedback EEG; Orienting response; Quantifiable; Trail-making test, 137

Subcortical
Error detector; Visual recognition; Multiunit activity; Man, 261

Subcortical nucleus
Human brain; Cortex area; Implanted electrode; Neuronal activity; Mental function; Test battery; Psychophysiological mapping, 107

Task performance
Heart rate; Intelligence; Respiration rate, 235

Test battery
Human brain; Cortex area; Subcortical nucleus; Implanted electrode; Neuronal activity; Mental function; Psychophysiological mapping, 107

Trail-making test
Alpha-blocking; Cirrhosis; Cortical arousal; Feedback EEG; Orienting response; Quantifiable; Subclinical hepatic encephalopathy, 137

Ventromedial nucleus
Evoked potential; Hypothalamus; Lateral area; Differential recording; Source localization; Hunger; Satiety; Rat, 73

Visual recognition
Error detector; Subcortical; Multiunit activity; Man, 261
